Normah Medical Specialist Centre, Kuching

Dr. Soon, a Consultant Cardiothoracic Surgeon at the Sarawak Heart Center in Malaysia, stands as a national leader in thoracic surgery training with a fervent dedication to advancing minimally invasive therapies. With extensive experience in adult cardiothoracic surgery, he spearheads the establishment of a minimally invasive cardiac surgical program focusing on thoracic endovascular aortic repair (TEVAR) and transcatheter aortic valve implantation (TAVI). Dr. Soon is deeply committed to enhancing healthcare services through leadership, education, and multidisciplinary collaboration, continually striving to elevate the quality of care and patient experience in his center.
